## Malbec Alicante

IGP Coteaux de Peyriac Rouge 2020

### Grape varieties :

An exotic blend inspired by the coincidence of maturity of Malbec and Alicante. How the young, fresh and fruity Malbec is underlined and softened by the old Alicante: the wine makes the most of both grapes!

**Volume** : 75 cl

**To keep** : 5 years

**To drink with** : Aperitif, barbecued meats and satays, sweet & sour, chicken curries, dishes cooked with aromatic herbs, heart of poultry, kidneys in sauce.

**Characteristics** : Malbec shows a fine, straight, neat tannin enhanced by a beautiful balance of acidity and a good fluidity. Alicante, traditional grape variety in our region, is seventy years old. It brings a subtle kirsche cherry flour, a distinctive purple colour and a softness thanks to the harvest of the over-mature berry.

**Terroir** : Clayish and calcareous soils over layers of sandstone banks in the colluvial areas of the village. The plots are orientated South at the sea level. Knowing Malbec from other regions and after tasting it in the years 1985-1990 in our village, we formed a clear idea of what we could expect from our vineyards.

**Vinification** : The grapes reaching maturity at the same time, they were picked together. They were destemmed and macerated together for 20 days. The wine is made and aged in cement vats. This blend is exotic in our region. We respect the soils, the style and our Mediterranean culture while exploring another of its many colours!
